

“FILL MY JOURNEY”

for “*JOURNEY*” CAMPAIGN

“JOURNEY’S” STORY

“Journey” is a female Great Dane about 15 months of age. She was found wandering highway 401 between Brockville & Kingston, Ontario terrified and severely neglected. She was infested with fleas and roundworms plus had pieces of her ears missing. She had open wounds, a broken tail, broken teeth and was suffering from frostbite, dehydration, pneumonia plus emaciation. She weighed just over 74lbs which; and at her age; she should have weighed closer to 115 lbs. Birch Haven Rescue and Rehabilitation Services picked her up upon receiving the call to assist and from there; she began her lengthy and expensive rehabilitation journey that has included two surgeries to date.

Please help “JOURNEY ” and the rest of the animals in need of BIRCH HAVEN RESCUE AND REHABILITATION SERVICES(BHRR)
